- Write a program that composes a melody of 10 notes using the chromatic scale and reproduces it in 60bpm.

- Write a program that plays the natural major scale.
- Write a program that composes a melody of 10 notes using the chromatic scale and reproduces it in 60bpm.
- Write a program that composes a melody of **20** notes using the **whole tone scale** and reproduces it in **120bpm**.
 - The whole tone scale is composed of those notes reached with whole steps starting from the fundamental pitch. That is, starting from, say it, C, you get C, D, E, F#, G#, and A#.

Write a program that makes a 2D drawing of the models of the Hydrogen and Helium atoms at the screen.

Summary

- Many possibilities for human-machine interaction.
- Next Week: If-Else
